

# TOP TEN TIPS FOR GAS SAFETY WEEK

1. Ensure all your Gas appliances are inspected every 12 months
2. Always use a Gas Safe Registered Engineer
3. Always ask to see the Gas Safe I.D. card #RegardtheCard
4. Ensure your Engineer is qualified to work on your Gas appliances
5. See the official list of Gas Engineers on the Gas Safe Register website:  
[www.gassaferegister.co.uk](http://www.gassaferegister.co.uk)
6. Buy a CO Alarm
7. Know the symptoms of CO poisoning and educate others
8. Know the location of your Gas meter and isolation valve
9. Never D.I.Y. with Gas
10. If you can smell Gas, call this number immediately: ☎ 0800 111 999
